

When someone says “你好,” you should respond with “你好.” If they ask “你好吗?,” you answer by telling them how you are. Play this quick response game with friends. Tell them you’re going to say some things really fast and they should answer as quickly as possible. Then, say “你好” or “你好吗” very fast and see if they can give you the right response. (Sometimes you can trick your friend by saying “你好” two times in a row!)
